Why Invest in New Windows and Doors?

- **No more painting of wood frames and No more rotting frames**
 - How much time and cost would you spend on painting the next 20 years?
- **Limited maintenance with new windows**
 - What is your time worth? Could you do better things with it?
- **No more water or air leakage**
 - How frustrating are unexpected costs to repair your home?
- **Eliminate the chance of moisture or debris between the panes**
 - How often has this happened in the past? How much of an inconvenience was it to have it replaced?
- **Reduce fading of flooring, furniture, and artwork by blocking UV rays**
 - We don't even want to begin to add up the costs of this, let alone the inconvenience!

MAXefficiency. **MAX**comfort. **MAX**quality. **MAX**service. **MAX**value. **MAX**community.

- **Lower your heating bills and cooling costs**
 - How much cost will you spend on heating and cooling the next 20 years?
- **Stay comfortable year-round**
 - How often are you changing clothes to stay comfortable in your own home?
- **Update the look and curb appeal of your home**
 - Your home is your most important investment, it should look that way too.
- **Increase the value of your home and the speed of resale**
 - How important was your first impression when you bought your home?
 - How many buyers are looking for move-in ready homes?
- **Add more light with window enlargements**
 - We all feel better with a brighter, naturally lit home.
- **Add ventilation with opening windows**
 - We all can use more fresh air.
